

**23 June 2008**

**STATES OF JERSEY SELECT XAFINITY CLAYBROOK'S  
SOFTWARE FOR PUBLIC EMPLOYEE PENSION SCHEME**

The transfer of the States of Jersey's Public Employees Pension Scheme onto *Compendia*, the multi-award winning pensions administration software, is well underway following a full competitive systems review.

States of Jersey will be managed by Xafinity Claybrook's specialist Public Sector team whose experience includes the support of the UK Civil Service Pension Scheme.

This is the third new business win to be announced for Xafinity Claybrook in the last three months.

**Stuart Lusby, Head of Shared Services, States of Jersey,  
comments:**

"Throughout the selection process Xafinity Claybrook gave us the confidence that they could deliver a solution that would meet all our requirements. As a system *Compendia* offers the modern workflow driven web functionality we require and it was Xafinity Claybrook's ability to demonstrate this functionality at well established clients across the UK which really impressed us. We received great assurance by talking to several of their clients about the customer experience we could expect both during the implementation and beyond."

**Mark Ellis, Sales and Marketing Director at Xafinity Claybrook,  
comments:**

"We are delighted with this latest new contract which further extends our presence within the Public Sector. The fact that we were selected following references being taken up with a number of our clients speaks volumes about the importance we attach to looking after our customers and the close working relationships we enjoy with them."
