

## Media Release

14 October 2010

For immediate release

### **Welplan Ltd appoint Xafinity Claybrook**

Welplan, the leading supplier of employee benefits to the building services industry, has selected Xafinity Claybrook's Compendia platform to run the pension administration of their defined contribution scheme. The project will improve member services, including access to information over the web, and achieve efficient service delivery through greater automation. Xafinity Claybrook will provide implementation, configuration and training with a go live date of October 2010.

It was the strength and partnership approach demonstrated through the selection process which impressed Welplan as well as Xafinity Claybrook's understanding of Welplan's business objectives.

#### **Michael Payten, Managing Director at Xafinity Claybrook commented on the appointment:**

"The content and flexibility of our Compendia system and our approach to partnering with clients enables us to satisfy Welplan's challenging brief. We are very pleased to have this opportunity to work with Welplan and support them in the continued growth of their business."

#### **Bruce Kirton, Chief Executive of Welplan commented:**

"We are driving the business forward and preparing for the opportunities that auto-enrolment will bring in 2012. It was exactly the right time therefore to invest in the very latest pensions administration solution, one that will allow us to grow and provide increased functionality to our clients and members. Following a detailed selection process we selected Xafinity's Compendia platform. The decision was based on Compendia's market leading functionality together with Xafinity Claybrook's understanding of our business and their enthusiasm for working in partnership with Welplan".

**ENDS**
