## **Xafinity SIPP and SSAS reports record new business growth**

Xafinity SIPP and SSAS, part of the Xafinity group, has reported significant new business growth in the first quarter of its financial year, across both its SIPP and SSAS businesses.

New SIPP business is up 80% and new SSAS business 100% on the same period last year.

A total of 47 financial adviser firms across the UK have placed a new SIPP with Xafinity for the very first time in 2016.

Andy Bowsher, director of self invested pensions at Xafinity, commented; "We are delighted our combination of financial strength, strong product, and personal service is continuing to grow the numbers of advisers who can see us as a safe harbour in these choppy seas. The SIPP provider world seems to be becoming ever more uncertain of late. Advisers are left guessing which providers will be around this time next year, and/or whether their chosen provider might embark on a journey that moors their clients in unexpected waters."

## **Notes to editors:**

### **Xafinity Self Invested Pensions**

The Xafinity Group is one of the UK's leading specialists in pensions and employee benefits. Our expertise includes corporate pensions and actuarial services, flexible benefits, healthcare, and of course SIPP and SSAS.

We have managed SSAS since 1979 and SIPP since 2004. We have built a hugely experienced and growing team, with more than 50 specialised staff in our SSAS/SIPP business. We administer self-invested pension assets worth in excess of £1.4bn.

Xafinity SIPP Services administers SIPPs and SSASs for around 4,000 clients. This includes around 1,600 commercial property investments, a specialist area of self-invested pensions.

We are committed to providing a professional and proportionate service, tailored to our clients' needs and delivered cost effectively.

*Xafinity SIPP Services Limited is authorised and regulated by the Financial Conduct Authority*
